

Getting the Issues on the Table

Hazel Burrows

BP International (Remediation Management)

19 November 2009

Getting the issues on the table....

“Brainstorm”

- Want to capture as many issues as possible
- Issues may be.....
 - Social
 - Technical
 - Financial
 - Legal / contractual
 - Managerial
 - Liability
 - Reputational
 - Other....

“tarter for ”....

Fires

Waste Dumping

Asset Deterioration

Site Maintenance

Trespassing and Injury

Site Break-in

Perception or reality? Need to address both

VALUE
\$ X m

LIABILITIES
Say \$ 9X m

How to make closure more attractive? Financially and Politically?

Brainstorming “Ground Rules”

- One statement at a time from a contributor
- Try to get contributions from everyone
- Only enough background for the room to understand the point to be written
- No idea is too ‘wacky’
- No debate is allowed; We are looking for as many issues as we can raise, not their solutions.
- Do not criticise any of the statements given by others

Useful to consider the closure process

- Pre-closure decision
 - what do we need to consider?
 - What differentiates between a ‘good’ and ‘bad’ closure decision?
- Announcement of closure
 - What issues can we expect?
- Manage the closure process
 - Who? How? How quickly?
 - What pitfalls might we meet?
- Complete the exit
 - What issues need to be addressed?
 - Leave a legacy?
 - No comebacks?

- 1 hour (14:00 – 15:00)
 - Up to 45 minutes - Raising Issues
 - 15 minutes - Plan how to structure a discussion about solutions (preparation for tomorrow)
- 3 groups:
- Neil Foster (this room)
- Marianne Blom (upstairs room 1)
- Johan Strandberg (upstairs room 2)
 - Each facilitator will summarise their session tomorrow morning

Day 1 wrap-up

- Day 1 highlights
 - Summary of issues raised by presentations
 - Chance to revisit tomorrow
 - Unearth some potential solutions
 - Work in small groups again to work on real cases
-
- 18:00 – Drinks and dinner
 - NICOLE Bowling competition
